Cracking the Code: System Design Interview Questions for a Cloud Solutions Architect at Microsoft ☁

[check out interviewquestionbank.com]

Landing a Cloud Solutions Architect role at Microsoft is a big deal! It requires a deep understanding of cloud architecture, system design principles, and Microsoft Azure. Let's boost your prep with some real-world interview questions:

- System Design ⚙
  * Design a highly scalable and resilient system for a global e-commerce platform.
  * How would you design a system to handle real-time data ingestion from millions of IoT devices?
  * Discuss the trade-offs between different database technologies for a cloud-based application.

- Cloud Architecture 🏛
  * Explain your understanding of different cloud service models (IaaS, PaaS, SaaS).
  * Describe your experience with Azure services like Azure Kubernetes Service (AKS), Azure Functions, and Azure Cosmos DB.
  * How would you migrate an on-premise application to the Azure cloud?

- Behavioral & Scenario-Based 🤔
  * Tell me about a time you had to make a critical decision regarding system architecture.
  * Describe a challenging technical problem you faced and how you solved it.
  * How do you stay up-to-date with the latest cloud technologies?
